

Independent Register & Mfg. Co.

ESTABLISHED 1898

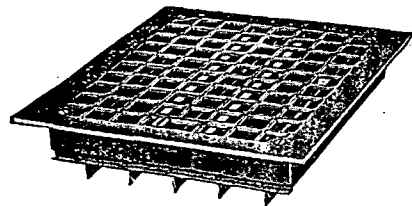

3753 East 93rd Street, Cleveland, Ohio

WROUGHT STEEL REGISTERS, REGISTER
FACES, VENTILATORS AND GRILLES

The Independent Line consists largely of Register Specialties, each designed to perform unusually well, some particular service in connection with heating and ventilating.

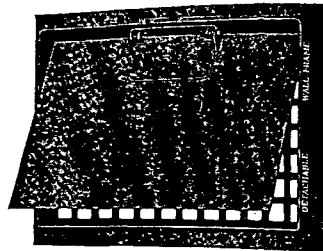

The complete line consists of Wrought Steel Registers and Faces, Wrought Steel and Bronze Grilles, "Fabrikated" Register Faces and Grilles, Adjustable Ceiling and Wall Ventilators, Pipeless Furnace Gratings, and Floor Borders.

If products shown here do not meet with your specifications, please send for full information and catalog covering our complete line.

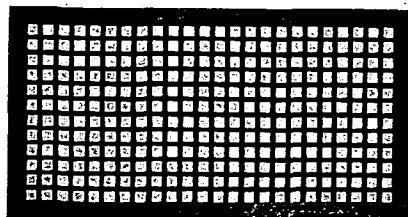

Register with Multivalves

Furnished in sizes approximately from 6 in. x 8 in. to 14 in. x 20 in. Practically any other size can be supplied promptly upon order.

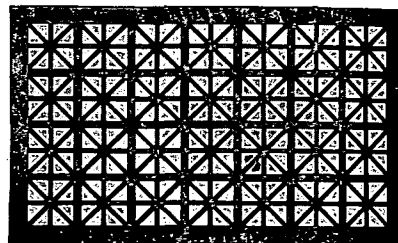

Register with Single Valve (Rear View)
Register furnished in wide range of sizes.

Plain Lattice Grilles

$\frac{1}{2}$ in., $\frac{3}{4}$ in., $\frac{1}{2}$ in., and 1 in. square openings.

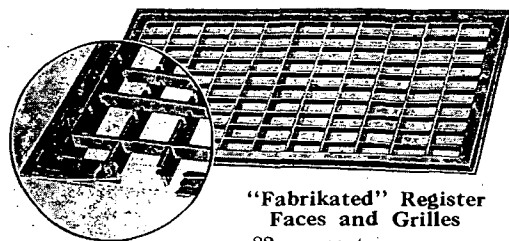

Made of Wrought Steel, Brass and Bronze.

Grecian Design Grilles

One of many designs.

Made of Wrought Steel, Brass and Bronze.

"Fabrikated" Register
Faces and Grilles
82 per cent open area.

"Fabrikated" construction is strong and rigid because it uses material to secure the utmost supporting strength. The outer frame is welded to form a solid piece and the grille is made up of steel strips set on edge.

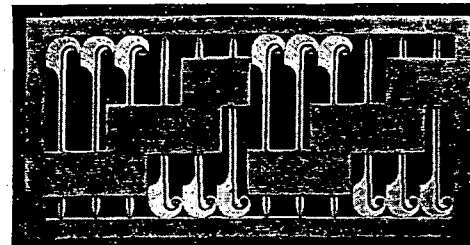

"Fabricated" Faces and Grilles can be furnished not only in all standard sizes, but in practically any size and finish, usually with but little delay.

FERROCRAFT CAST GRILLES

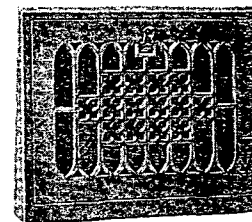

An exclusive T & B Product for heating and ventilating ducts or special uses. Superior in perfection of finish and resistance to breakage. Unique in beauty and design, Period or Modern.

STAMPED METAL GRILLES

Perforated, to sizes specified, of Steel, Brass, Bronze, Monel-Metal and Aluminum sheets. Made in several designs, plain lattice or ornamental and can be supplied with any standard finish, matched to sample or in priming coat.

REGISTERS

Complete Registers or Faces in cast or stamped metals. All types of standard make in stock. Special sizes or designs to order and many finishes in one or two colors for harmony or delightful contrasts. (At right: the Tudor, Style 700, Base-board Register.)

VENTILATORS

For ceilings, walls, windows, doors, etc. Adjustable Ventilators for circulation from floor to floor; Sliding Dampers for shallow ducts, doors or window frames and wherever a graduated flow of air is desired. In finishes suitable to every purpose.

RADIATOR CABINETS

Many attractive styles, made of furniture metal and designed to meet both technical and artistic requirements. Made to order only, to fit any Radiator and construction condition.

RADIATOR FRONTS

For recessed radiators, attractively designed, with or without the new type sliding Damper for easy control of air flow. Same sturdy construction and beautiful finishes as our Radiator Cabinets.
