List the approximate amount of friable asbestos materials present. (linear ft. or square ft.)

48 linear feet

Describe method used in demolition or renovation project.

We will remove asbestos according to current guidelines. White suits, rubber
roller boots, dust masks, and the required safety equipment will be used.

Describe, in detail, procedures to be used in collecting and disposing of asbestos.
The area will be barricaded. The asbestos will be wet down and a plastic cover will be
spread on the ground. The insulators will then strip and place asbestos in plastic bags
in preparation for disposal.

Give name, location and phone number of disposal facility where asbestos will be taken.
