Dear Bill:

Thank you for your note of 10-7-64 and for the clipping concerning Asbestosis. The problem of mesotheliomas in individuals exposed to asbestos is pretty well known in industry. It is interesting that Don Rennie also wrote to me and at about the same time you did concerning this particular item.

GREAT MINDS, ETC

Up until the present time, based upon our industrial hygiene surveys, we have not had any great concern about asbestos exposure among our employees but there is certainly the need for continued vigilance.

Thank you for your interest.

Best regards.
