Subject KEITH FOGG'S PARTICIPATION IN LCCP INDUSTRIAL HYGIENE AUDIT PROGRAM

This year an industrial hygiene audit program was initiated by Conoco Chemicals to assess our plant programs. To do these audits a team consisting of myself, a corporate industrial hygienist and a Chemical plant Safety Director is used.

I would like to have Keith participate in the audit of the Lake Charles Chemical Plant the second or third week of January. This would involve three days of his time during the audit only. No other writing or administrative time will be required.

Please let me know if this will be acceptable so I can finalize plans for the audit.

Thomas G. Grumbles
