RE: LPA Solvent

Dear Mr. Lucido:

Enclosed is a Material Safety Data Sheet for Conoco Chemicals' LPA Solvent. LPA contains no constituents listed in OSHA 1910.1000-1046, or the most current TLV list. The only applicable exposure limit recommendation to be found is in the criteria document referenced on the MSDS. However, the analytical data below is provided for your information.

LPA CONSTITUENTS

APPROXIMATE WEIGHT-PERCENT

Isoalkanes C ₁₀ -C ₁₈	17.1
Monocyclic Alkanes C ₉ -C ₁₅	28.6
Bicyclic Alkanes C ₁₀ -C ₁₅	45.3
Tricyclic Alkanes C ₁₁ -C ₁₅	8.4

Please call if you have further questions regarding the safety and health aspects of this product.

Sincerely,

Thomas G. Grumbles

To Gerald Uptain
From Tom Grumbles
Date April 3, 1984
Subject PONCA CITY ANALYTICAL RECORDS

The enclosed discusses our access to the subject records. Assuming we go to an outside lab at closing to do our lead analysis, we would definitely have access to the records for the 12 months that we need by regulation. The Vista R&D support services agreement is for 3-5 years.

Based on the enclosed, we do not need to obtain copies at this time.

File: RF w/ letterRef: MEMO FROM TOM GRUMBLES TO CHARLIE STARKS, MARCH 13, 1983, ON
"PONCA CITY ANALYTICAL RECORDS"

I have reviewed the question of data access with the Conoco personnel, and I find no problem regarding access to these data as long as the Vista/Conoco service agreement is in effect. Based on the current wording in that agreement, Vista R&D will be on-site for at least three years. Vista R&D can also retain whatever records that exist on Vista samples.
