Attention: Mr. Edward S. Pruitt, Esquire
EPA Administrator

Subject: Federal Court

Dear Mr. Pruitt:

Good Day! I need your help on an EPA problem.. I am doing a Qui Tam Lawsuit and I must go into Federal Court. I am not an attorney and I don't now if the Court will allow me to do it. It is all EPA related work and I was wondering if you or someone you know would do it. There are some laws must be updated. I am bringing up renewable oil and I believe you know about my work, I am 100% in agreement with the Global Warming, but I do agree with your efforts in initiating the necessary controls. EPA for years was concerned about carbon control, but had no ideal on the equipment required to enact their laws. This caused many problems.

I would require a basic letter of approval on your letterhead. If you are interested, I could find a basic outline of the lawsuit. Further, I retired 13 years ago and have money problems. Could you or President Donald J. Trump advance me \$5,000 dollars for legal fees? I have two important patents which I must pay and maintenance fees on another patent. I paid my own way for 35 years, but I am getting short. I am bringing up renewable oil.

I thank you for your time and appreciate your help.. Maybe you could put the deal in your Government paper?

Best regards! Remember, this is Clean Coal Technology; a lot of business for coal!

Very truly yours,
U.S. Petroleum Corp.
