

intra-letter

Date: February 18, 1986

From: R. Czubkowski

To: John Holz

Subject: ASBESTOS IN MINING PRODUCTS

Attached are letters from G. Schmid and R. Schramm covering their respective product areas.

Some electrical resistor assemblies, Dipper Trip and Swing Resistors, used AVA wire, P&H 218. This was superseded in August, 1984 by P&H 2016. Engineering assumes this was accomplished per the ERN.
