

## Georgia Department of Natural Resources

270 Washington Street, S.W., Room 825, Atlanta, Georgia 30334

J. Leonard Ledbetter, Commissioner  
Harold F. Reheis, Assistant Director  
Environmental Protection Division

January 10, 1986

Dear Sir or Madam:

Enclosed are instructions and forms for completing your Georgia Biennial Hazardous Waste Report for 1985. You are receiving these forms because you have indicated to us that you are either a generator of hazardous waste and/or you own or operate a hazardous waste treatment, storage, or disposal (TSD) facility.

Included in this package are the following:

- Instructions on which forms to complete.
- Form A - Identification Sheet and instructions.
- Form B - Self-Generated Hazardous Waste and Its Disposition and instructions.
- Form C - Hazardous Waste Received From Off-Site Handlers and Its Disposition and instructions.
- Form D - Hazardous Waste Minimization and instructions.
- Appendix

The instructions on the forms are self-explanatory. This report covers only hazardous waste that was generated, received, shipped, treated, or disposed of during the calendar year 1985. The amount of waste that was in storage on-site at the beginning and at the end of 1985 is also to be reported. Please read all instructions carefully before attempting to complete the report. After filling out the forms, please review them for accuracy and completeness.

All quantities of waste must be expressed in tons (2,000 lbs = 1 ton) to the third decimal place. Any other unit of measure will be unacceptable.

The report must be completed and returned, no later than March 1, 1986, to:

Industrial & Hazardous Waste Management Program  
Environmental Protection Division  
Room 724, 270 Washington Street, S. W.
