P. S.

Fireman. Sunday evening they had tea with Mrs. John Alden Shepard.

Carbon Staff of Life

Carbon, in its various forms, may be considered the actual staff of life because the carbon atom alone enables other atoms to combine in groups from which all kinds of substances are formed.

EMBROIDERY CLUB

POSTPONES MEETING

The meeting of the Embroidery club, scheduled for yesterday, was not held, members postponing the session until May 11.

At this time, the club will probably meet at the home of Mrs. E. M. Kimble.

YOUR HOUSE NEEDS DUTCH BOY WHITE-LEAD PROTECTION

HOUSES need protection against rain, sun and snow. Cracking, scaling, falling paint lets the elements get at the bare wood, causing damage in the form of decay.

If the paint on your house shows signs of failing, better call us in now. Don't wait until the paint is so far gone that repairs are necessary. We will give you a reasonable price on a complete repaint job, using only the best materials, such as Dutch Boy white-lead and oil paint. Estimates cheerfully given without obligation.
