Lockland, Cincinnati 15, Ohio

Dear Mr. Preston:

Workmen's Compensation Insurance
1960 Premium Rates

The cost of \$16,300.00 for Claim CD-108274, Herbert Gooch, Dec'd, is correct and has been evaluated in accordance with the rules and regulations of the Actuarial Section.

It was our conclusion, however, that the charge of \$24,826.00 against Claim CD-106226, Clarence Mullette, was incorrect, and this is a matter which has already been taken up with the Actuarial Department, and we are awaiting its decision.

As soon as a finding has been made on this and other rate protests, which we have made to the department, we will send you a complete report on the net premium rate, and this will be followed by a survey of your experience for a five-year period ended December 31, 1959, upon which it was based. I will then be glad to come to your office and discuss it with you and with your associates, and also discuss it in an open meeting similar to those held in recent years.

The medical amounts listed in your letter of October 17, 1960 have been checked and are correct. These are totals of numbers of claims that arose throughout your operation.

The claim number that you give is not the number of a particular claim, but is the designation of a whole group of claims. In fact, the number is actually the number of that many claims involving the payment of medical expenses only.

You may rest assured that all of the charges against your account are being thoroughly audited by our office, and that we have taken up with the Actuarial Department, those that are subject to question.

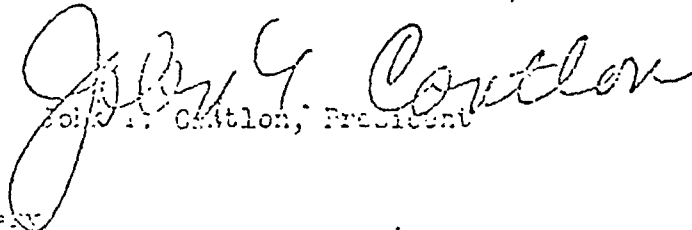

Mr. R. J. Preston, Safety Supervisor
The Philip Carey Manufacturing Company
Lockland, Cincinnati 15, Ohio

October 25, 1960

As soon as the final decision has been made as to the rate corrections, and a report can be prepared, we will send this information to you, and as suggested above, will then visit you to discuss it.

Yours very truly,

JOHN T. CAMILLO & ASSOCIATES, INC.

John T. Camillo, President
