Subject RETENTION OF RECORDS FOR VCM REGULATED AREA LOGS

I spoke with Michele Malloy today concerning your question on the retention of the subject records. These "authorized personnel rosters" were required in Section M, records of the original standard. The section of the standard specifically requiring these records be kept for 30 years was revoked in the VCM standard revision of October 24, 1978.

It is Michele's opinion that these "authorized personnel roster" records may be disposed of.
