HOUSING SCROLLS. We do not manufacture housings but have prepared drawing with tables of dimensions for Scrolls for each size wheel. Copy will be mailed upon request.

CAPACITY TABLES. Capacity rating and curve sheets showing static pressure, air deliveries and brake horsepower at various speeds will be sent upon request.

The Torrington Mfg. Co.

50 Franklin Street, Torrington, Conn.

AIRISTOCRAT SILENT FANS

Patent No. 2,021,707

Deluxe Model—For desk, ceiling and wall bracket fans. Built with round center disc in size 8 in.—10 in.—12 in.—16 in.

Standard Model—Same as Deluxe model but with conventional type spider for economy.

Pressure Model—Same blade shape as Deluxe Model but designed for moderate pressures where quiet operation is desired. Sizes 8 in.—10 in.—12 in.—14 in.—16 in.

All models have 4-blades, for clockwise rotation. Hubs of brass, blades of steel or aluminum—any finish.

VARIPITCH PRESSURE FANS

A newly patented variable pitch propeller fan blade will be marketed in 1937. Details furnished upon request.

Prices and ratings for all fans furnished upon request.

AUTOCRAT FANS

Torrington Autocrat fans for auto heaters and wind-shield defrosters have been the standard ever since these devices were first marketed. Made in sizes 3 in.—4 in.—4 1/2 in.—5 in.—5 1/2 in.—5 3/4 in.—6 in.—6 1/2 in.—6 3/4 in. All four blades. Also 7 in. 5-blade.

Made in one piece of cold rolled steel or aluminum with brass hubs, complete with set screw. 1/4 in. bore is standard. Either clockwise or counter-clockwise rotation (expressed when looking at air delivery side of fan). White nickel is standard finish for steel blades.

Send for Bulletin with prices, detailed specifications and ratings.
