

	E	Page		Page		Page
Economic thickness of pipe insulation		203	Grilles			86, 474
Economical chimney sizes		238	Guarded hot box			23
Effective area of distribution of spray		420		H		
Effective temperature		393				
Effects of adverse air conditions		389	Hand-firing			258
Efficiencies, heating	222, 266		Harmful substances, removal of			340
Ejector type ventilators		365	Hartford return connection			151
Elbow equivalents, hot water		114	Head and flow, relation between in natural			361
Electric heating	297, 300		ventilation			212
Electric motors		495	Headers, domestic water supply			387
Electric unit heater		506	Health			409
Electric water heating		300	air conditioning in relation to			395
Electricity, heat equivalents of		302	air pollution in relation to			389
Electrostatic precipitators		528	optimum conditions for			302
Enclosures, radiator		103	Heat			17
Equalizer connection		166	effects of			388
Equivalent evaporation		221	equivalents of electricity			372, 343
Equivalent length of pipe	114, 137		from sources other than heating plant			267
Evaporation			regulation in man			17
equivalent		221	required for ventilation			385
heat transmitted by		385	required to warm buildings			385
spray		420	sources			402
temperature of		379	transmitted by evaporation			60
Evaporative cooling		518	Heat and moisture given up by human body			108
Exhaust grilles, air flow through		474	Heat and moisture removal			16, 39
Exhaust openings, ventilation	342, 513		Heat capacity			108
Exhaust steam, heating with		303	Heat emission of enclosed radiators			16
Exhaust systems		345	Heat losses			18
Expansion and contraction of pipe	128, 180, 313		effect of wind movement on			9
Expansion pyrometer		534	examples of computations			13
Expansion tanks		127	procedure to be followed for estimating			23
	F		temperatures			
			Heat transfer			
Factor of evaporation		221	through materials and constructions			23
Fan furnace heating		433	through pipes			189
Fan steam heating systems		441	Heater connections			162, 165
Fan systems, central		433	Heaters			
Fans	355, 483		domestic water supply			215
Filters	478, 480, 481, 528		fan furnace			435
Fittings			Heating and ventilating specifications			548
pipe		182	Heating efficiencies			266
water gage glass		228	Heating load and exhaust steam available			305
welding		187	Heating mediums for unit heaters			500
Flanged fittings		182	Heating of radiators			102
Flat grate stokers		275	Heating supply water of humidifiers			421
Float traps		173	Heating surface		95, 103, 325	
Flow meters		324	Heating supply, boiler			220
Flow of steam in pipes		131	Heating units		95, 103, 111, 165, 442	
Fluid meters		322	Heating with electricity			297
Forced circulation hot water heating systems		113	Heating with exhaust steam			303
Forced circulation, warm air		94	High ceilings, allowance for			12
Forced draft systems		231	High duty humidifiers			422
Forward curved multiblade fan characteristics		485	High-low operation of oil burners			284
Friction head chart, hot water		115	Hoods, design of for exhaust systems			356
Friction losses in ducts	452, 453, 454		Horizontal return tubular boilers			218
Furnace design	220, 280		Hot box apparatus			23
Fuels (see Chapter 16)	249		Hot water heating systems		111, 299	
Fumes	477		Hot water pipes, insulation of		190	
Furnace, size of	89		Hot water storage tanks		215, 329	
	G		Hot water supply boilers		219	
			Hot water temperature		216	
Garage heaters	293		Human body, heat and moisture given up by		402	
Gas			Humidification for residences		549	
combustion of	264		Humidifiers		419, 424	
manufactured	263		Humidifying problem		373	
natural	263		Humidifying efficiency of air washers		429	
Gas boilers, selection of	293		Humidity	372, 393, 398, 429, 432, 537		
Gas burning furnaces	434		Humidity control instruments		432	
Gas-designed heating systems	289			I		
Gas-fired boiler ratings	223		Identification of pipe			180
Gas-fired warm air furnaces	290		Idle heating boilers, care of			230
Gas heating appliances	289		Ignition of oil			283
Gas logs	292		Impurities, removal of			423
Gas scrubbers	528		Inclined grate stokers			276
Gaseous fuels	263		Indirect-acting thermostats			328
Grate area	91		Indirect electric heaters			298
Gravity convectors	103		Indirect humidifiers			424
