Mr. H. L. Levine, President
Sprayed Fiber Manufacturers Association
c/o Asbestospray Corporation
1060 Broad Street
Newark, New Jersey 07102

Dear Bert:

In a phone conversation with the Johns-Manville asbestos people recently, I learned that they have, some time during the week of January 20th, received an urgent plea from Stanley Konfa for help. Apparently, they were spraying fiber on a job for Squibb Pharmaceutical and that a policy directive from the Squibb management determined they would not have asbestos fiber products on their job because of the "fall-out" hazard.

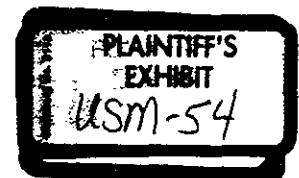

I told Mike Donovan of the Kodaras paper which was news to him, even though other people at J-M may be aware of it. I also assured him that I would contact you with respect to this action by Squibb so that you might make the entire association aware of it.

Sincerely,

J. P. Verholan,

President.
