Moore & Walker Roads
Avon Lake, Ohio 44012

Dear Alan:

In follow-up to the discussions at the Technical Committee Meeting on September 17, I have now had an opportunity to review the document prepared as a Summary Report on the HCl decay project.

The bibliography and reference given are excellent as are the figures and diagrams. I wish I could say the same about the narrative portion. I have taken the time to extensively edit the report and enclosed for your consideration is the version that I believe reads more easily and does more justice to the quality of the work carried out.

When you receive the input from other members of the Technical Committee, this Summary Report should be put into final form and issued to the Technical Committee.

Please let me know if you have any questions or if I can be of further help.

Sincerely yours,

A handwritten signature in cursive script, reading "Roy Gattesman", is written below the typed name.
