Dear President's Office Staff for University of Chicago:

Please find attached 1-one PowerPoint document that I presented regarding the goldfish in the outdoor pond that I have provided necessary emails to the staff at your offices in recent weeks. There is a film on Vimeo with this PowerPoint presentation that I did also. Please see the weblink below for the Vimeo film at:

<https://vimeo.com/173418450>

Both the PowerPoint and Vimeo film presentations were done in Spanish. I did them for a Spanish class in July 2016/July 6-13, 2016 (I am currently still taking Spanish classes at a school called Instituto Cervantes, where I did this PowerPoint presentation and the Vimeo film). I apologize for the few typos and some missing accent marks in the PowerPoint presentation.

These presentations and the notes with it are both confidential.

If you have any questions regarding this email and its contents, please call:

-Rich Moskal - City of Chicago/Chicago Film Office at [\(312\) 744-6415](tel:3127446415)

Mr. Moskal is a reference and is cc'd with this email.

Thank you.
Kanika Sago

Good Evening:

Please review the presentation below (attached with this email). I had to do a presentation for class on any subject. I apologize for certain typos and missing accent marks--The presentation is in Spanish.

I did this for Spanish class on Wednesday, July 6th. This was presented with the film at the weblink below-- Kanika Sago did the PowerPoint slides with photography and the film with a narration in brief (The film is on Vimeo):

Watch "Spanish Presentation - Filmed July 2016/Pond With Goldfish" on Vimeo:

<https://vimeo.com/173418450>

Please note that my daughter, Renata has seen the film also. She told me that she like it and that is was very good. The lawncare is done by a Mexican Lawncare Company. My mother does the main design and landscape. I feed the fish and purchase food. The house, garage and pond are on PRIVATE PROPERTY.

WARNING: Please note that during the winter months, these fish should be in an INDOOR fish tank. It is highly recommended.

Thank you.

Kanika/Kanika Sago
