Attached is a copy of a letter that I received from Aetna. We have several men at our duPont Plant at Spruance who have been diagnosed as Asbestosis cases. Also, locally we are involved in three hearings on Asbestosis. Aetna is naturally handling these claims.

Pre-employment X-rays naturally involve a sizeable cost to a branch not to mention the administrative headache. I am sure that you are aware of this, and I attach this letter simply for information purposes.
