## Dries While You Wait---Lasts a Lifetime

This wonderful product has been developed in the laboratories of the Sherwin-Williams Co., by the finest chemists in the world, after spending years of time experimenting and the expenditure of thousands of dollars. It is absolutely first class and will give perfect satisfaction.

How many times have you put up with a worn, shabby floor because you dreaded the "mess" of painting? And how many times have you window-shopped with hungry eyes, wishing you might find courage to do over some of the furniture at home in the new vogue?

will do these things for you because it "Dries While You Wait."

It means that you can now

Lacquer the floor and, in less than an hour, move the rugs and furniture back into place onto a hard, lustrous, durable and handsome floor.

Lacquer the table, prepare the meal and serve it on the new finish.

Put the kiddies to bed for their afternoon nap. Lacquer their toys and they will be ready when the children awake, brilliant, sanitary and enjoyable all over again.

Lacquer the stairway, read the evening paper and walk up over the new finish when you're ready to go to bed.

In fact, you can Lacquer everything about the house except the baby and the cooking utensils! And you can Lacquer all these things conveniently, without the bother of sticky surfaces and without taking the things out of service.

is not paint, is not varnish, although it does the work of these most conveniently. It is made of the finest quality of virgin cotton, nitrated and treated very much the same as in making of celluloid.

The lacquers you have come to know about as used on automobiles are, of course, so exceedingly quick drying that they can be applied only with spray equipment.

Rogers Brushing Lacquer is a marvelous finish recently made possible through the perfect blending of rare solvents which cause the lacquer to dry slow enough so that you can apply it with a brush. You have been accustomed to do with varnish and enamel. It's so easy to flow on that it makes painting real fun. Saves hours and even days of tie-up.
