**WHITE
QUICK DRYING ENAMEL**

Manufactured by JOHN LUCAS & COMPANY, INC.

N 4763

DIRECTIONS FOR USE

This Cold Drying Enamel is a most desirable paint for decorating interior and exterior surfaces. It is a high gloss enamel that dries to a hard, durable film.

This Enamel will beautifully redecorate woodwork, doors, walls, paneling and lawn furniture, dish basins, candlesticks, radiators, toys, bicycles, cars, pottery, glass, mirrors, windows, etc.

Surfaces to be coated must be dry and free from grease and dirt. Wash with soap and water then rinse with clean water to remove soap. Stir lightly with No. 1 Sandpaper to produce a smooth surface.

One coat will be sufficient to cover an old painted surface of similar color, otherwise two coats are recommended. Apply Enamel as it comes in the can and allow first coat to dry (and before recoating).

Never expose the contents of this container to an open flame or fire.
