Thank you! We have a some flexibility in terms of timing so if we run a little behind schedule it's not a problem. I too do not want it to be rushed. Thank you for the detailed schedule.

Feel free to edit into your more compact version but our internal run of show is below. I am going to talk to our tour lead and security director to determine the best way to start the tour given we are starting at the training center but my instinct is we will shuttle the group from there to the beginning of the fabrication shop area as walking that is a whole lot of empty space and dead time.

One note is that we are compressing the two tours quite a bit from their normal length as well as introducing some transportation that we usually don't do given the starting point. Usually, one of the big time killers that gets us behind schedule even on normal length tours is if the principal gets really engaged with a worker or with the tour leads on a given topic and stops moving. Obviously that is great but I am going to have my guys prepared to keep it running as quickly as possible. However, I know they are not going to feel comfortable rushing the Secretary. Just flagging that in case someone is staffing him and has the ability to nudge along. We are going to have to move at a somewhat brisk pace.

0930-0935 Secretary Duffy and electeds arrive **at Training Academy**, 2100 Kitty Hawk Avenue, Philadelphia, PA 19112.

0935-0940 Met by David Kim, President and CEO, HPS and Danny O'Brien, President and CEO, HCA

0940-0950 Meet HPS apprentices and instructors; Megan Heileman, HPS Training Manager, will lead the discussion. Mark Dickens, President Philadelphia Metal Trades Council and other union reps will be there

0950-0955 Put on Personal Protective equipment (PPE), e.g. hardhats, ear/eye protection

0955-1015 Take shuttle to beginning of shop tour, tour through fabrication shops, hit dock 4 (building dock) end at NSMV 3 (possibly use shuttle to get to NSMV 3 quicker). Tour led by Jongmoo Lee, Head of Shipyard Operations and Bob Fitzpatrick, VP, Production

1015-1035 Tour NMSV 3 (State of Maine) in outfitting dock (Dock 5) tour led by John Bond, Sr. Project Manager and Adam Glass, Project Manager

1035-1045 Executive time (Take to 620)

1045-1120 Media Availability in front of NSMV 3; podium, mic and speaker will be set up.

1120 Visit concludes; Secretary Duffy departs HPS.

Photos Hi-res photos of the entire visit will be provided to Secretary Duffy

Thanks Nick. For clarity, are you all meeting at the front gate of the shipyard or going directly to the training academy? Now that the TA is first, it may be easier to go directly there since it is outside of the shipyard boundaries.

Just as a heads up, press/media is generally not allowed within the shipyard gates at this time. (Kelly, please chime in if this policy has changed.) They can, however, film b-roll at the training academy where the Secretary will talk with Apprentices.

Hello everyone,

Ahead of Mondays visit to Hanwha Philly Shipyard, on behalf of the Comms team we'd like to gather some information about your needs/ requests for the visit as well as gather an idea of what press presence will look like.

Could you please detail to us what your plans are for inviting and confirming press/ media? Also, will you be coordinating a press release/ media advisory?
Please let us know what you will need from us for any alerts going out.

From our end, so long as weather permits, we could stage the press avail outside the Training Academy and that portion will directly follow the Training Academy tour and conversations. Press will set up in the parking lot in front of the speaking set up.

Subject: Coms POC

Michael,

At your convenience could you please connect @Sizemore, Nathaniel (OST) from our Coms team with your coms team? Also do we have a time Sunday that works best for your team for our walkthrough?

Thank you,

Nick LaRotonda

Director of Advance

Office of Secretary of Transportation

U.S. Department of Transportation
