SUBJECT: Changes to Protective Clothing and Equipment A.P.

Please review the proposed changes to the attached draft policy and get any comments back to me by January 9, 1981. To facilitate your review, additions/changes have been underlined. The major changes were in the following sections.

1. Minimum dress standard for protection (new).
2. Deleting the verbage in existing policy allowing personnel to initially report to work in the plant and also leave at end of work period without glasses.
3. Major additions to goggle section. (All the eye protection changes were a result of Plant Eye Protection Committee recommendations.)
4. Celanese will contribute \$10 per pair twice per year rather than \$5 on safety shoes.

The tank car/truck loading policies will be modified to be consistent with the proposed changes to the goggle policy.
