Dr. W. F. Machle

Dear Dr. Machle:

Mr. John S. Cole of our Seattle Division mentioned a letter received from you, in his weekly letter of April 4th, concerning lead found in the overlap of the sheets in tanks Nos. 97 and 98 of the Standard Oil of Indiana at Casper, Wyoming.

We are unable to locate a copy of this letter in our files and would appreciate your sending us a duplicate in order that our records may be complete.

Very truly yours,

O. B. LEWIS
