Ethyl Gasoline Corporation
405 Lexington Avenue
New York, N. Y.

Dear Mr. Schaefer:

Acknowledging your letter of April 12, would advise that I am still unable, on account of press of other duties, to prepare the instructions for shipment of Ethyl Fluid in our own bottoms. I have it in mind, however, to prepare same at the first opportunity.

Since we do not expect to make any shipments of Ethyl Fluid in the immediate future, I certainly will have the instructions ready before any further shipments are made.

Very truly yours,
