

LEAD INDUSTRIES ASSOCIATION

882 MADISON AVENUE
NEW YORK 17, N. Y.

July 19, 1961

SUBJECT: ATTENDANCE AT DESIGN
ENGINEERING SHOW

To Members of the Lead Industries Association:

Our recent exhibit at the Design Engineering Show held at Cobo Hall, Detroit, Mich. on May 22-25, 1961, was probably the most successful exhibit ever presented by L.I.A. It is our opinion, based on general observation, that L.I.A.'s booth attracted as much attention as any of the several hundred other exhibits at the Show.

In addition to the extensive general interest shown by engineers visiting our display, the number of direct inquiries we received relating to specific products was most impressive. A list of the latter is attached. You will note that we have indicated the subject in which they expressed interest and desired more information.

These inquiries have been answered by our staff and are being placed on our mailing list to receive our quarterly publication LEAD.

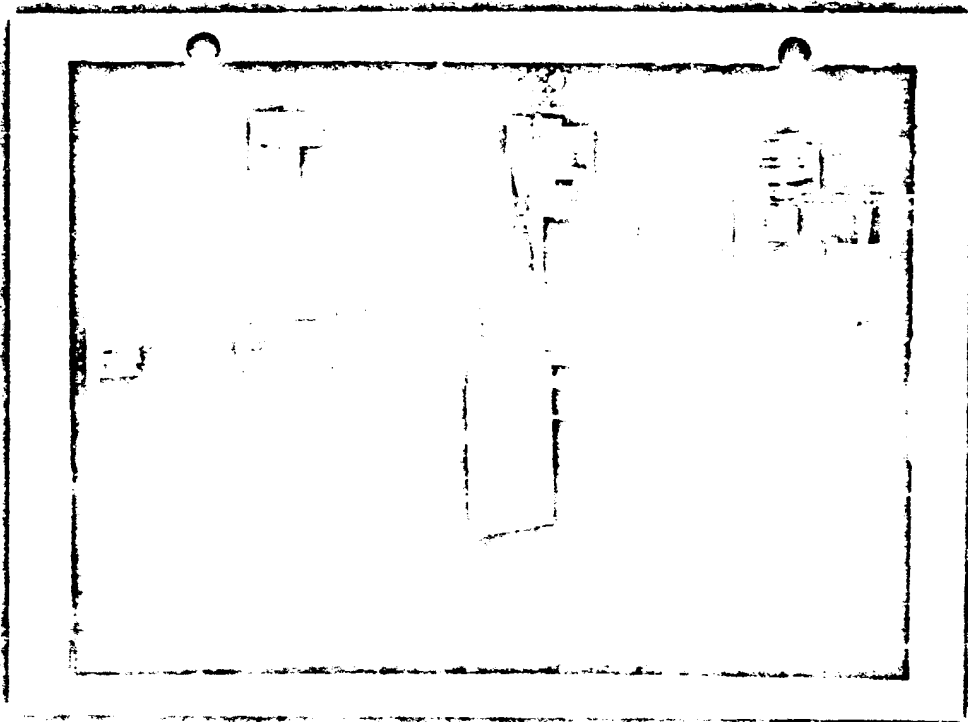

A photograph of our exhibit is also attached.

Sincerely yours,

David M. Borcina
David M. Borcina
Assistant to the Secretary
