SUBJECT: Use of Asbestos

Per Frank Biltons report, we are still using 30,000 pounds of asbestos per month. Our commitment to Bill Dean was no asbestos usage by July 1, 1976. At this stage, we can hardly afford to gamble further. No insurance company will touch us if they knew we are still using asbestos. We are having little success as it is.

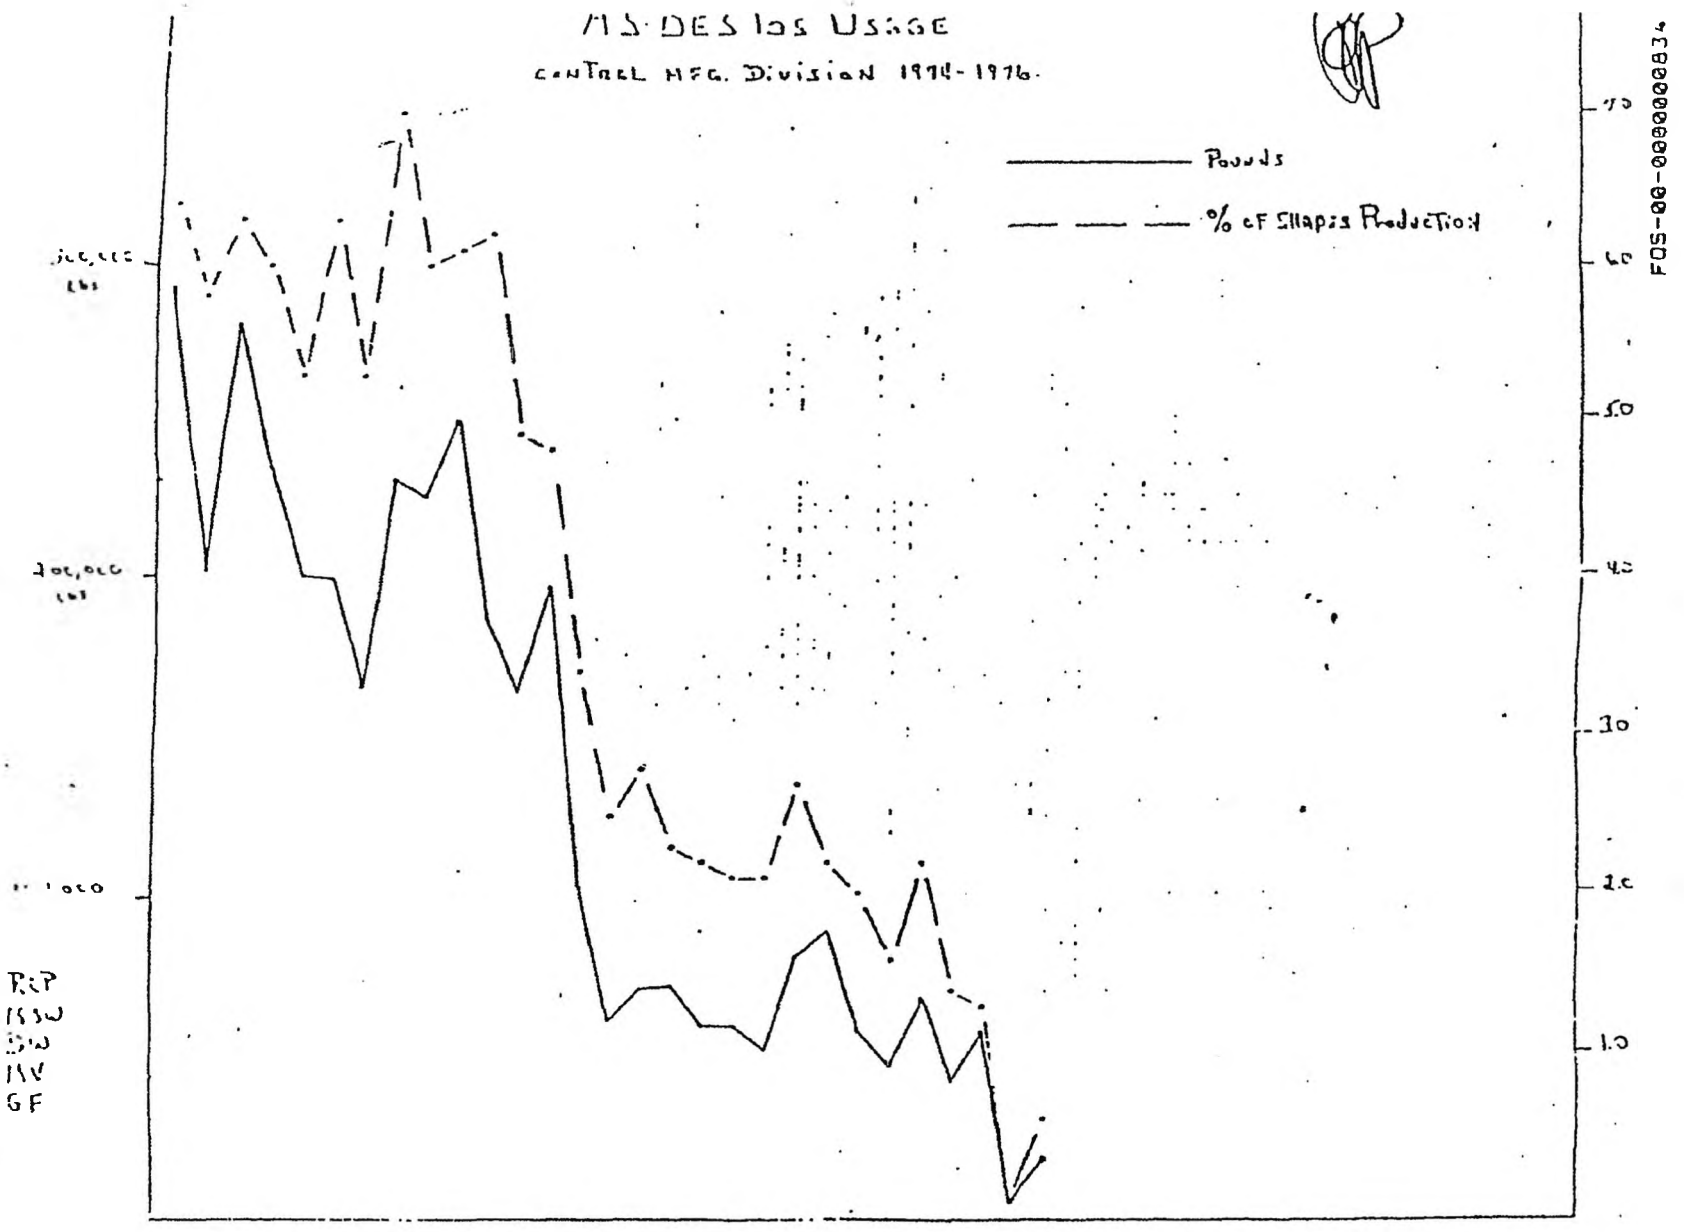

I've contacted Bill Vandemark through his secretary and asked that he give this problem his immediate attention. I would appreciate your assistance in ensuring that we do comply with your memo.
