Mr. W. D. Kinsell - UCB	Mr. L. Nusser
Mr. J. W. Kocher - UCB	Mr. I. J. Foote - UCB
Mr. L. F. Long - UCB	Dr. H. J. Kiefer - UCB

In this report various products were coded under the solvent listings with the symbol "O". This symbol indicates that the existing formula will meet Rule 66 solvent requirements if conforming S-330, S-332 and S-348 solvents are used in that formula.

Current raw material code books and raw material information cards list these as follows:

S-330 Mineral Spirits

Mineral Spirits 6.5-7.5% Aromatic (West Coast 20H) AMSCO
Rule 66 Mineral Spirits (West Coast 350H) Ashland
MS 145 EC Shell
350 H Standard Oil of Calif.

S-332 Super VM&P Naphtha

Special Naphtholite 66/3 - AMSCO
Hi Initial VM&P Naphtha - Ashland
VM&P - EC - Shell

S-348 Kerosene

Amsco 460 Solvent 66/3 - AMSCO
Rule 66 Kerosene - Ashland

Please refer to raw material cards for more detailed information.
