PROCUREMENT DEPARTMENT - 19

TO MEMORANDUM

1981 SEPTEMBER 18

RE: PURCHASE AGREEMENT IN017695PA JOHNS-MANVILLE MARINITE PRODUCTS

Attached is your copy of Change Order No. 2 extending the referenced agreement through 1982 OCT 31 and increasing prices on the asbestos grade Marinite only.

My letter of 1981 MAR 30 advised all plants to replace asbestos Molten Metal Marinite (094-210-xxxx) with Marinite-C (094-218-xxxx). However, on the basis of the poor results obtained with the use of Marinite-C in troughs, dams and floating skimmers at the Tennessee Operations - South Plant -- we are rescinding our directive to replace asbestos Molten Metal Marinite until additional tests and plant trials are completed. Asbestos Marinite will be available until further notice.

If there are any questions on this matter, please contact me directly.
