KENTILE®

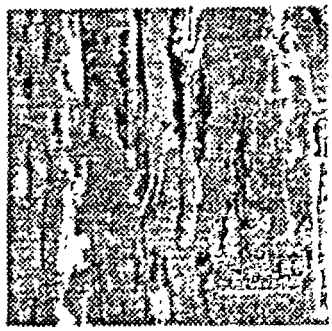

ASPHALT TILE

Kentile helps cut building costs in modern homes. Ideal for basements and for installation over concrete interior floors in contact with the earth. Kentile Asphalt Tile is styrene-fortified. All fillers, binders and pigments resist alkali in concrete, sturdy asbestos filler helps insulate against cold and dampness. Recommended for use over radiant heated slabs, it can also be installed over double Tongue and Groove wood floors or over suitable underlayment board.

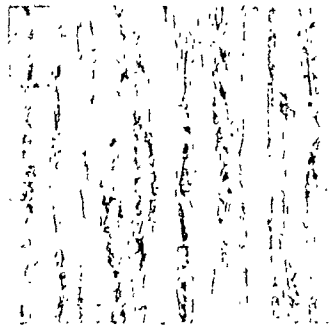

Standard Size: 9" x 9" in all 25 tile colors shown here. *Thickness*: 1/8" for normal use, 3/16" for extra heavy duty. *Border Size*: 18" x 24" in Black (A-102), Quarry Red (A-106), Grand Antique (B-204), Sarrancolin (B-254). *Edging*: 1" x 18" with one edge tapered, Black (A-102), Quarry Red (A-106).

Federal Brick

A unique approach to the ever popular herringbone brick style. A realistic brick look laced with natural color grouting creates a tile floor that's ideal for the colonial kitchen, the family room, den or foyer—wherever the rustic appearance of brick is desired.

SIZE 12" x 12" in 1/16" thickness

Independence Red 1025

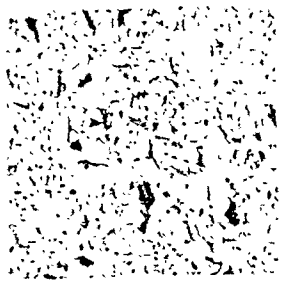

Four 12" x 12" Columbia White 1026 tiles

Rustic Stone

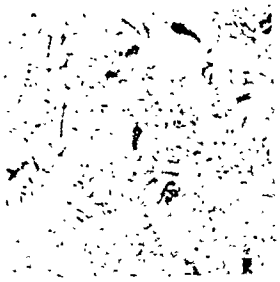

A textured look with the natural marble-chip pattern of fine Mediterranean terrazzo and the superior color integrity and stain resistance of Reinforced Vinyl Tile. This new design features deeply embedded large chips of translucent vinyl, overlaid on a matrix with the fine-grained look of pebble stones. It's an authentic look - natural in appearance but with toughness and flexibility. Produced with rustic texturing to further heighten its appeal.

Kentile Reinforced Vinyl Tile

DESCRIPTION: Composed of vinyl resins, asbestos fibers and fillers, this is the most extensively used of all floor tiles. Economical, durable, greaseproof and with low maintenance cost, it may be installed on, above or below grade with inexpensive adhesives. Excellent for institutional, commercial and residential floors. No-wax maintenance procedures are also approved. 1/16" Reinforced Vinyl and 3/32" Mastercraft styles not recommended for commercial installations. EMBOSSED AND TEXTURED TILES: Changes in embossed and textured tile surfaces may develop as the tile is used. Such wear is considered normal and is not to be construed as poor or unsatisfactory performance.
K-FACTOR: 4.5 BTU/sq. ft./hr./ F/in. thick
FEDERAL SPECIFICATIONS: SS-T-312B, DATED: October 10, 1974 and Interim Amendment (1) dated November 14, 1979.

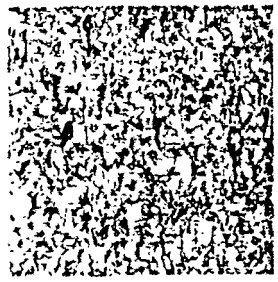

Portilla

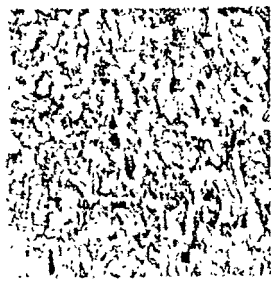

Big, bold chips that dominate the face of the tile give this style unbelievable depth, unmatched style and more durability with thru and thru mottle styling. A different look in smooth surface, bold chip, vivid color styling.
SIZE: 12" x 12" in 3/32" and 1/8" thicknesses

Kentile Vinyl Sheet Flooring should be your choice when you want to cover a broad expanse of floor with a minimum of joints. Professionally installed, this material provides a beautiful flowing appearance with a minimum of maintenance effort. All three styles of Kentile Vinyl Sheet Flooring have the Hydrite back which means they can be installed above, on or below grade; from basement to attic.

K-FACTOR: TEMPO: 14.7 BTU/sq.ft./hr./°F/in.thick.
GLENDURA: 12.8 BTU/sq.ft./hr./°F/in.thick.
MALIBAR: 11.4 BTU/sq.ft./hr./°F/in.thick.

GLENDURA
