AMCO

UNIT HUMIDIFYING AND AIR CONDITIONING EQUIPMENT

A few of many AMCO products with a Long Record of Dependable Performance

Sectional Humidifiers.
Amtex Humidifiers.
Hand Sprayers.
Mine Sprays.
Fabric and Paper Dampeners.

Mechanical Psychrometers.
Electro Psychrometers.
Sling Psychrometers.
Hygrometers.

The Amco line of devices for the supply, maintenance and control of humidity is complete in its ability to meet any presented problem of applied humidification. Used independently or as an adjunct to Central Station equipment, these devices automatically maintain any required humidity condition in a capable uniform performance.

IDEAL HUMIDIFIERS—Senior Type

A high capacity unit for use where conditions require a great amount and good distribution of moisture. Motor driven fan gives wide distribution of atomized spray. Amco heads serve the triple purpose of humidifying, air washing and cooling.

IDEAL HUMIDIFIERS—Junior Type

Similar in construction to Senior Type. Used where medium capacities are required.

AMCO ATOMIZER—No. 4

Quality and quantity of spray are maintained even under adverse conditions because this atomizer is automatically self-cleaning. When the compressed air supply is shut off, either manually or in response to a humidity control, both air and water nozzles are thoroughly cleaned.

AMCO HUMIDITY CONTROLS

Compressed Air Operated

An extremely accurate and active device operated by compressed air which assures a regulation of humidity within exceedingly close ranges.

AMCO HUMIDITY CONTROL

Electrically Operated

Similar in principle to the Compressed Air Type except that the hygroscopic element operates electrical contacts which control the units.

Carrier Corporation

AIR CONDITIONING - REFRIGERATION - HEATING

Home Office: Syracuse, N. Y.

District Sales Offices: NEW YORK, PHILADELPHIA, CHICAGO, LOS ANGELES

Branch Offices and Dealers in Principal Cities

International Division—Syracuse, N. Y.

Marine Division—405 Lexington Ave., New York City

AIR CONDITIONING FOR INDUSTRY

Central Station type for process and comfort.
Unitary equipment.
Humidifiers.
Spray type dehumidifiers.
Surface type dehumidifiers.
Centrifugal refrigeration using Carrene.
Reciprocating refrigeration using Freon or methyl chloride.
Evaporative condensers.
Marine refrigerating machines.

Carrier Central Station Type Air Conditioning Equipment

AIR CONDITIONING FOR BUSINESS

Central station type.
Unitary equipment.
Centrifugal refrigeration using Carrene.
Reciprocating refrigeration using Freon or methyl chloride.
Evaporative condensers.
Cold diffusers.
Room units.

Carrier Store Weathermaker For Commercial Installations

AIR CONDITIONING FOR HOME

Home furnace (for oil or gas).
Home air conditioners (for winter and summer).
Oil burner.
Room units (for selected rooms).

REFRIGERATION

Reciprocating refrigeration machines.
Centrifugal refrigeration machines.
Cold diffusers.
Evaporative condensers.
Accessory equipment.

Carrier Centrifugal Refrigeration Machine

SPACE HEATING.

Unit heaters.
Heat diffusers.

There is a Carrier system exactly fitted to each requirement and the nearest Carrier dealer or office of Carrier Corporation offers a complete service in solving any air conditioning, drying, space heating or refrigerating problem.
