MEMORANDUM

May 16, 1946

~~MISS JOHNSON~~

Whatever we finally conclude about these recommendations, certainly this survey is a highly skillful and thoughtful analysis of the problem. We are deeply indebted to Mr. Kivlin and his associates for the material.

Please see that Dr. Lanza, Dr. Wheatley, and Miss Haupt have an opportunity to review it carefully before we jointly discuss it. It would also be interesting to know, if we had an opportunity, how it struck Miss Nelson.

mr Hansen will send me a carbon to send Miss Nelson

MJJ

Second Vice-President
