

We wouldn't let any acrylic sheet in the whole wide world carry our *Dutch Boy* name.

Only this one.

We're pretty particular about putting our Dutch Boy name on new products.

They've got to measure up to our Dutch Boy standards. Take our new Dutch Boy cast acrylic sheet. It's made by Landover Manufacturing Company—a subsidiary of National Lead, a leader in industry for over 75 years.

Dutch Boy acrylic sheet is available in a wide range of sizes and thicknesses. Translucent and transparent. In clears and in bright, durable, fade-resistant Dutch Boy colors.

And with Dutch Boy you're assured of superior quality. Satisfaction. Fast order service. Dependable delivery.

Want to hear more? Samples? An appointment with a Dutch Boy representative? Easy. Just check and mail the coupon today. Landover Manufacturing Company, Landover, Maryland. A subsidiary of National Lead Company.
