INDUSTRIAL HYGIENE DIGEST
1942

Absenteeism		Air analysis (cont'd)	
490-491-1133-1135		organic compounds	102
reduction of	823	pyridine	106
statistics	1047	radon	669
Acrylic plastics		standard methods	767
manufacture	784	sulfur dioxide	294
Acrylonitrile		sulfur monochloride	1157
181		thoron	774
Air analysis		toluene	205
acrolein	1159	ultraviolet light instrument	1154
acetylene	401-1024	unsaturated hydrocarbons	463
APHA methods	548	x-ray diffraction	912
arsine & phosphine	783	Air borne infection	
bacteriological	100-107	control of	938
benzene	101	Air conditioning	
benzene & toluene	660	blackout plants	933
benzene signaling apparatus	673	chemistry laboratory	468
carbon disulfide	110	in crane cabs	207
carbon monoxide	103-201-549-1163	in mines	208
carbon tetrachloride	108	Airflow measurement	
chloroform	108	768-1027	
dichlorethane	104	Air travel	
dust counting	671	medical problems	457
dust dispersion	776	Algae	
dust measurement	775	toxicity	1123
electrical method for traces	1161	Allergy	
formaldehyde	200	iodine	755
gases and vapors	674	respiratory	315
glass nomimeter	913	Aluminum	
hydrogen sulfide	110	inhalation	176
lead, cadmium, zinc	769	Aminoacetic acid	
methane	778	effects on capacity	319
methyl cellosolve	1152		
naphthalene	105		
nitrogen oxides	109-1031		

004001

amino compounds					
aromatic					
toxicity		196		Antiseptics	
				toxicity	747
Analysis				Aphonia	
antimony & bismuth	1183			in telephone operators	420
arsenic	664-666			Arsenic	
bismuth	781			industrial deposition	1118
carbon monoxide in blood	1162			in urine	741
chemicals, explosive	461			poisoning	
cobalt	670			in vine growers	1119
ethanol	920			vitamin C therapy	736
fluorine	394-771			Arsine	
glycerol	919			184	
heavy metals in foods	1023			Arthritis	
lead	95-97-98-402-403			compressed air workers	459
mercury	99			skin burn	637
in foods	923			Asbestos	
nitroaniline	293			effect on animal tissues	834
pentachlorophenol	667			Asbestosis	
phenol in the tissues	662			366	
phenothiazine	918			Aspergillosis	
phosphorus	922			pulmonary	360
propylene glycol	206			Atmospheric pollution	
quartz (silica)	291-398-1030			industrial	943
selenium in foods	926			Aviation, medicine	
silicon	780			developments	535
trace elements in foods	1023			extreme temperatures	963
trinitrotoluene	204			industrial hygiene	536
				military aviation	537
Anemia				occupational hazards	459
toxic				problems	763
tests for	1007			Barium carbonate	
Anesthesia				28	
overdose in	968			Basic proteins	
Aniline				toxicity	890
oil	51			Benzene (benzol)	
poisoning	728			44-385-386	
Anoxia				and hypovitaminosis	190
high altitude flying	1006			aplastic anemia	195
Antracosis				legislation	623
inherent	24-33			poisoning	622-624
Asbestos				safe use of	1005
brush workers	538			urine sulfate test	1156
Asphyxia					
tests	690				

Index - 3.

Benzoic acid	
toxicity	860
Beryllium	
oxide poisoning	745
toxicity	514
Bismuth	
lung dusting experiments	443
Bone and joint	
occupational disease	426
Bronchial asthma	
occurrence	649
Burns
