

To the Members of the Board of Directors
of SPRAYED MINERAL FIBER MANUFACTURERS
ASSOCIATION, INC.:

The following mail ballot is submitted to the Board of Directors by the Chairman, pursuant to Article V, Section 8, of the By-Laws:

RESOLVED, that the Association engage Mr. A. E. Binger as part-time Secretary, commencing July 1, 1967, at a monthly salary equivalent to $3,000.00 a year and, that he be reimbursed for all out of pocket cash cost for work directly related to Association activity;

FURTHER RESOLVED, that the quarterly dues of each member of the Association be raised by an amount equivalent to $500.00 per year.

R. H. Toth
Member of the Board of Directors

asbestos, and the date the product was first produced without the asbestos;

(q) if the product is no longer produced, all reasons it was discontinued, the identity of the person who made the decision to discontinue the product, the brand name of the replacement product, and the date the replacement product first went into production;

(r) a precise description of your identifying logo or initials and the dates of inclusion on the product; and

(s) the identity of the custodian of actual containers or photographs of containers of the product.

1. ANSWER:

This defendant manufactured, at various times during its existence, two virtually identical product lines of asbestos-containing products. Those product lines were: (1) the Triko line which was sold under the registered trademark "Triko Products" and (2) a secondary line which was sold under several different names. The difference between the batching formulas for the two product lines was minimal and was unrelated to asbestos fiber content. In other words, the asbestos fiber content for each product which was sold under both product lines was virtually identical. The following is a listing of the products which were sold under the Triko line. The secondary line products are identified in subparagraph (n) under the description for the equivalent Triko product.

(i) Triko Aristex and Triko Aristex Poly
