

December 18, 1969

G. Fred Lee, Professor
Water Chemistry
University of Wisconsin *PCB*
Water Chemistry Laboratory
Madison, Wisconsin 53706

Dear Dr. Lee:

I am sending under separate cover today 500 milligram samples of 2,4' and 4,4' dichlorobiphenyl. These, I am told, are about 95% purity.

Samples referred to in Weingarten's earlier publication have been exhausted for some time.

Dr. Ellenburg is no longer with Monsanto.

Best wishes for a happy holiday season.

Very truly yours,

Elmer P. Wheeler
Manager, Environmental Health
