

1 A Let's take the part that you didn't
2 underline. Following his last dose of Adriamycin and
3 Cytosan, Mr. Vandergucht had two to three episodes of
4 vomiting.

5 Unlike the last episode, however, he was
6 rather nauseated for the remainder of the week and ate
7 very little.

8 That is certainly characteristics of those
9 chemotherapy agents.

10 Q This made him sick for a week at least,
11 didn't it?

12 A Right.

13 Q Again, Doctor, anything else you want to
14 read before I take it down?

15 A I think that will do it.

16 Q All right. Doctor, when did he finally stop
17 the chemotherapy?

18 Do you know from your review of the
19 records?

20 A I don't know off the top of my head. Again,
21 I would have to look at the records.
