Subject: Fall Climate Change Conference - ACE Follow-up

Bill –

It was a pleasure to meet you at the Air & Waste Management Association (A&WMA) conference in Pittsburgh. I trust your follow-on trip to Portland was uneventful and you've made your way back to DC by now. I wanted to follow-up with you regarding the climate change conference we discussed after your address. As Jeff and I mentioned, when we approached Administrator Pruitt's office regarding his participation at ACE, his Administrative Assistance Sydney Hupp indicated that Mr. Pruitt would be in Italy during the Pittsburgh conference but he would be interested in participating (or rather may like to participate) in a fall event if we had one on the agenda. The Climate Change meeting we have planned for Northern Virginia in October seemed like a perfect fit to that concept. Below is a summary of the event, the agenda, and the plans thus far. Any help you can offer in helping us pursue Administrator Pruitt or one of his associates would be greatly appreciated. If you or any of his staff have questions on the event, please feel free to contact me or any other member of our senior leadership team copied on this email.

In addition, we have or will be extending invitations to:
