HANDCRAFT STAINS

Prepared Ready for the Brush

A line of highest grade artistic stains, exclusive in character, for use in finishing the highest class of interior woodwork, fine furniture, etc. They have an individual richness of tone, hold thoroughly in suspension, do not streak or show laps, dry promptly without a tendency to smut when finished over, do not require to be wiped off to secure the desired effect and do not obscure the finest grained woods. Handcraft Stains have none of the objectionable features of water or spirit stains, because they do not raise the grain of the wood in the least. This effects a great saving in the labor necessary for obtaining a perfectly smooth surface upon which to finish.

PERMANENT MAHOGANY STAIN No. 700

The most permanent Mahogany Stain made for interior woodwork, pianos, and other first-class work of mahogany or birch. Not recommended for soft woods. Made in three shades—Light, Dark and Antique Brown. Any desired shade between light and dark can be procured by mixing varying proportions of the light and dark stain until the desired intermediate shade is secured. Do not subject to freezing temperature.

GOLDEN OAK STAIN

For use in connection with S-W Golden Oak Filler, for sundry staining, etc. Golden Oak Stain is intended for use on oak or other woods in the finishing of interior woodwork, furniture, etc., and when reduced as recommended, dries promptly and produces the universally accepted shade. It brings out the flakes in quarter-sawed oak in fine contrast. Needs no wiping and does not streak or show laps. The popular shade is secured by reducing with two parts turpentine and two parts benzine to one part stain; for lighter effects, however, it may be reduced more than above directed.

WOODCRAFT STAINS

Prepared Ready for the Brush

This line of stains especially designed for producing on soft, inexpensive woods, such as Georgia and Washington Pine, Gum, Fir, etc., the popular Mission effects. The demand for a stain of this character is universally prevalent, by reason of the increasing scarcity of Oak and the more desirable hardwoods so generally used heretofore.

Notwithstanding the fact that in designing these stains their special adaptability to soft woods was of first consideration, equally satisfactory results are to be obtained when they are used on Oak and other expensive hardwoods.

Each effect produced by the use of Woodcraft Stains is a perfect specimen of the character of finish it is intended to represent. The Fumed Oak effect procured on Oak is such a perfect imitation of the genuine Ammonia Fumed Oak that only those of extended experience can determine the difference. Unlike most other stains on the market, the services of an expert workman are not required to obtain the desired effect. Perfect results can be secured by the amateur.

Woodcraft Stains do not raise the grain of the wood; do not streak or show brush-marks; dry promptly and will not bleed up when finished over; do not require wiping, and with one application will produce the clear, stained effect, without obliterating the grain of the wood. Woodcraft Stains represent the best value obtainable, in the way of a permanently satisfactory, moderate-priced stain. Explicit instructions for use will be found on color-card.

OLD DUTCH ENAMEL

Prepared Ready for the Brush

Old Dutch Enamel represents the very highest quality enamel possible to secure from a combination of choice raw materials and unequalled facilities for the manufacture of high-grade paint and varnish products. This product is made in strict accordance with the process employed by the most famous of Dutch manufacturers, with such improvements as we have been able to make from our long experience. In working out Old Dutch Enamel, we are convinced that this product will give the best results when used over a flat lead coat made from Sherwin-Williams Old Dutch Process White Lead. Old Dutch Enamel will meet every requirement of a gloss enamel for either interior or exterior use.

ENAMELOID

Prepared Ready for the Brush

A splendid enamel for use on inside walls, ceilings and woodwork where a high-gloss finish is demanded. Enameloid produces an enamel finish superior to the ordinary enamels on the market. It is easy to apply, does not drag under the brush, covers well and can be cleaned with soap and water without injury.

TAXITE (PAINT AND VARNISH REMOVER)

Prepared Ready for the Brush

Removes old paint or varnish from any surface. Apply with a brush and allow it to stand 10 or 15 minutes—then scrape off with a knife, clean surface with benzine, gasoline, or wood-alcohol, and it's ready for refinishing. Taxite does not injure the skin, discolor most delicately grained woods, soften glue or interfere with the drying or durability of subsequent coats of paint or varnish. Doesn't run off of upright surfaces. Can be furnished in paste form when desired.

DEALERS AND CONSUMERS

Net prices per gallon

½ Pts.	Pts.	Qts.	½ Gals.	Gals.
2 40	2 15	2 00	1 90	1 80

Where a dealer or consumer purchases 24 gallons or more during a period of twelve months, he is entitled to an allowance of 5 cents per gallon from the above schedule of prices.

JOBBERS

Net prices per gallon				
20	30	60	1.10	2.00
½ Pts.	Pts.	Qts.	½ Gals.	Gals.
2 10	1 85	1 70	1 60	1 50

Discounts may be allowed as follows:

On purchases in quantities of 10 or more cases, 5%; in quantities of 25 or more cases, 7%; and in quantities of 50 or more cases, 10%; but to permit the allowance of such discounts the quantities necessary therefor shall be ordered and shipped or delivered during the period of 12 months following the first day of July in any year, and the discounts shall not be allowed until the full quantity required therefor shall have been ordered and delivered or shipped as aforesaid.

UNITED STATES GOVERNMENT, RAILWAYS, ETC.

The United States Government may be given the lowest jobbers' discount without reference to quantity purchased, viz.: 10% from the above Jobbers' Schedule.

State, County and Municipal Governments, Railroads, Traction Companies, Steamship, Car Building and Car Repairing Companies may be given a discount of 5% from the above jobbers' schedule without reference to quantity purchased, but no other discount, except for cash payment.

In the event of any cancellation of orders or return of goods by jobbers, dealers or consumers, prices shall be readjusted and settlements made according to the actual quantities purchased and retained.

TERMS: 60 days, 2% for cash within 15 days after shipment; Spring dating permissible only for goods sold after November 1st of each year.

Effective July 1, 1913.

FRENCH CROWN GREEN

L. M. D. AND DD.

For painting window-blinds and all surfaces where permanent shades of Green are desired; also largely used by master painters for tinting purposes. Has all the requirements of beauty, durability and permanency of color of Paris Green, without any of the poisonous properties of that green, while its covering power is more than four times as great. Paris Green was formerly recognized as the standard for these shades.

VERDELITE

The Satisfactory Green

Verdelite is manufactured in four shades, Light, Medium, Dark and Olive, and is particularly adapted for painting doors, window-blinds, structural and ornamental ironwork, store-fronts, fences, and can be used generally for all outdoor surfaces. Verdelite looks better, spreads further and lasts longer than any green on the market sold for similar purposes.

ENGLISH PATENT DRIER

An ideal drier for use in drying Whites. Owing to its peculiar character, it does not interfere with the elasticity of the liquids, as it does not act as a thinner like liquid driers, there should be a demand for this product among practical painters.

GRAPHITE — BLACK LEAD

Ground in Oil

MACHINE PAINT AND FILLER

S-W Machine Paint is more thoroughly mixed and more finely ground than any other and has greatest covering capacity. It is made on exact formulas and is always uniform. Owing to the high-grade liquids in which it is ground, it has splendid drying qualities. Made in steel color (five shades), and Red.

S-W Machine Filler for filling in iron and steel where a smooth surface is desired. Uniform in working and drying qualities. Does not dry out porous, sand dusty, chip off in handling, or blister when subjected to high temperature.

SCHOOLBOARD SLATING

Prepared Ready for the Brush

A paint for making and renewing schoolboards. Three or four coats on wood give a good writing surface. One or two coats over old and worn boards make them like new.

(Dark green can also be supplied on demand)

HARMLESS SHEEP MARKING LIQUID

Prepared Ready for Use

STAYS IN WITH THE WEATHER
COMES OUT IN THE SCOURING

A marking liquid that remains permanent on the sheep's back, yet washes out clean in the scouring process or with hot water and soda. Does not injure the fleece. Increases the selling value of every fleece from one-quarter to one cent per pound over and above the price that is obtained where a tar paint, or "dope" inks that do not scour out, are employed.
