Interoffice Communication

To R. D. Gamblin
From J. A. DeBernardi
Date October 10, 1978
Subject Design Change Order - #1 Incinerator

The attached change order is for your signature. The expansion joint proposed for the outlet of the incinerator boiler connection to the HCl absorbing tower is unacceptable for this service. The proposed joint will not provide a leak-free system in this area and allow vapors containing HCl into the atmosphere. The system proposed by the plant will eliminate this problem.

Funds used for this change order will be taken from the project's overtime reserve allocation. Please return the form to me after approval and I'll move it on to Houston.

A handwritten signature in dark ink, appearing to read "J. A. DeBernardi", written in a cursive style.
