Subject: Meeting Request for the NAAQS Regulatory Review & Rulemaking Coalition

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Abbie:

On behalf of the NAAQS Regulatory Review & Rulemaking Coalition (NR3), I would like to request a meeting with you and the appropriate OAQPS staff regarding ongoing implementation of the PM 2.5 NAAQS. The NR3 Coalition is an ad hoc association of industry groups and companies supportive of NAAQS implementation that provides protection consistent with the Clean Air Act, use technically accurate modeling and assumptions, and recognizes the role of states as EPA's co-regulators. Over the last decade, NR3 members have met regularly with EPA on implantation policy, both at the OAQPS staff and OAR AA level. We believe that EPA shares our joint goal of increasing the accuracy of modeling and other key implementation tools while ensuring continued air quality.

I appreciate your consideration of this request; from our side we value the discussions we have had over the years with EPA on these shared policy goals.

Please feel free to have your staff reach out to me or my assistant Abbey Buchholz (copied on this email) for any questions or scheduling information.

Sincerely,
Joe
