

June 17, 1969

Mr. R. G. Mason
Manager-Material Group
Battery Division
Globe-Union Inc.
5757 North Green Bay Avenue
Milwaukee, Wisconsin 53201

Dear Mason:

LI - Membership

Thank you very much for your letter of June 10, 1969 requesting membership in the Lead Industries Association.

All that remains now is formal action by the Board of Directors approving your application for membership and this is being taken care of by letter ballot. As soon as this is completed a formal notification of your acceptance will be sent you.

In the meantime we can take care of some of the formalities. I assume that you will be the official representative of your company and as such you will be placed on our mailing list to receive all of the bulletins, statistics, etc. sent out by the Association. If there are any others in your organization you wish to be placed on our mailing list to receive this material please let us know.

I also appreciate your sending us your lead consumption figures and you can rest assured that these will be kept in strictest confidence. On the basis of the reported tonnage your assessment for the calendar year would be the maximum for your membership classification, namely \$300. Inasmuch as your membership in all likelihood will begin around July 1, 1969 your assessment for 1969 will be half this amount or \$250. A statement to this effect will be sent you at the appropriate time.
