

June 18, 1971

Mr. A. C. Titus
Volunteer Coordinator
VITA
College Campus
Schenectady, New York 12308

Dear Dr. Titus:

Thank you for your letter of June 15.

I am afraid I am not capable from a chemical standpoint to answer your questions about possible interferences of constituents of certain paints.

I will refer your question, however, to paint chemists who are associated with our industry. When I receive an answer, I will pass it on to you.

Sincerely,

J. F. Cole, Sc. D.
Director, Environmental Health
