ELECTRICAL PROPERTIES
ANALYTICAL COSTS

A. E. Leisy/R. M. McCutchan
R. Kuster
E. E. Stewart/W. A. Krull

Mr. J. R. Savage - JSAVA
General Offices
B-2-N

It costs \$12/sample extra to run double electrical properties analyses. Total extra cost year-to-date is about \$2,200.

We are currently running the new electrical properties tests in the "clean" room. Power factor results check with Research results. Some problems were encountered with resistivity and are being resolved now.
