OLD BUSINESS1. Plant Safety Program

The sub-committee's report was tentatively accepted. This program will not be issued as a Procedure Bulletin at this time, but it will be used by the individual superintendents in their particular departments.

2. Testing Pressure Tank Bombs

This items was tabled until the next meeting.

3. Supervisors Safety Training

For the Supervisors Safety Training Course, 83 names have been submitted. The textbooks have been ordered and it is planned to start this training during the week of July 10. There will be three classes running concurrently on Tuesday, Wednesday, and Thursday on a bi-weekly schedule.

NEW BUSINESS

SC 16885

1. Hourly Safety Committee

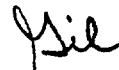

The matter of supervision instructing workmen to clean up after a job, or transferring the men out before cleanup is possible, was discussed. Since no specific area was cited,

LAM024155

the Board members will pass along this comment from the Hourly Safety Committee to their supervision. The Board feels that this item regarding cleanup procedure is possibly the exception rather than the rule and will be handled by individual supervision as they see the need.

2. Springfield's Safety Performance Index

Mr. Chamberlin appointed a committee consisting of Messrs. Grissom, Kongable, Buttery, and Gilmore to study this Index further to determine if this or similar statistical systems can be used in this plant.
