JUL 6 1966
PER... H
INDU...

REMARKS: No previous pc. or folder on file. Plant is located on the second floor of the building. They hope to move from this location in the near future. Housekeeping is good. Floors are swept once a week after kerosene is sprinkled. I.H. discussed the feasibility of purchasing an industrial vacuum cleaner so that overhead structures could also be cleaned. Asbestos is bought as cloth. Little dust generated at processing operations.

TYPE OF VISIT: Inspection DATE: 6/20/66 BY: W. Chrostek LO
