We are aware that most speakers and faculty members at our meetings and courses appreciate knowing the make-up of their audience. The attached list are the registrants as of today. We expect the total attendance will reach 65. If you are planning handout material, you should contemplate that number. If you will forward same to me by November 10, I will see that your material is included in the packet each registrant receives.

Standard projection equipment on hand will be an overhead projector and an Eastman carousel 35 mm projector. If there is anything else you require, please do call.

Sincerely,

George H. Reilly
