Phil Grossweiler has prepared a 35mm slide presentation showing the work done by Newport News Shipyard in converting the Port Everglades/Sunshine State into the EXXON GALVESTON. The sequence of approximately 60 slides shows the vessels at start of work, cutting away of the tug and barge, joining of vessels, work on deck and outfit of the new deckhouse and accommodations.

The presentations (approximately 45 minutes each) will be given in Room 3412 at 10:00 AM on the following dates:

April 18
April 21
April 25

You and the members of your staff are invited to attend one of these presentations. I think everyone will find it very interesting and informative.

Please try to have those members of your staff who do want to attend divided as evenly as possible among the three presentations so we can avoid overcrowding the conference room.
