Subject: RE: PFAS workshop announced!

Bonjour

Bedankt voor deze informatie, lijkt mij inderdaad een interessant event!

En F-gassen zijn inderdaad een belangrijk onderdeel van de PFAS problematiek, zeker als je naar het aantal emissies tijdens gebruik kijkt (zie onderstaande screenshot van het restrictie dossier) dan zie je dat gefluoreerde gassen het overgrote deel van de emissies uitmaken.

Daarom is het inderdaad belangrijk dat de REACH restrictie goed wordt afgestemd met de werking van het Montreal Protocol.

Nogmaals bedankt voor de info!

Bàv,

Table 1. Estimated annual emissions from the use phase for PFAS manufacture and major PFAS use sectors (estimates)^a. Emissions relate to new products on the market, unless stated otherwise. Mid points are used in im

Application	PFAAs and PFAA precursors (t/y)			Fluorinated gases (t/y)			Polymeric PFASs (t/y)			Total PF (t/y)
	low	mid	high	Low	mid	high	low	mid	high	low
Manufacture	54	86	118	309	1 973	3 637	15	23	30	378

Food contact materials and packaging	123	491	858				99	100	100	222
Metal plating and manufacture of metal products ^c	0.5	6	11.4							1
Consumer mixtures										23
Cosmetics										0.015
Ski wax										1
Applications of fluorinated gases ^{d,e}				38 806 1 696	38 806 1 696	38 806 1 696				38 806 1 696
Medical devices	128	239	350	3 772	5 586	7 400	32	76	120	3 932
Transport ^d							269 35	439 58	609 80	269 35
Electronics and semiconductors	348	513	677	7	7	7	11	152	292	366
Energy sector	42	42	42				12	13	13	53
Construction products	88	152	216				1 364	2 338	3 311	1 451
Lubricants	0.11	0.6	1.1	29	46	62	123	174	225	152
Petroleum and mining ^c	0.3		2.3							0
TOTAL^f	2 842	7 707	12 571	42 923	46 418	49 912	10 251	19 958	29 660	56 038
Total ^g	2 842	7 707	12 571	5 813	9 308	12 802	10 017	19 577	29 131	18 694

a) In some cases a basis for providing a range is lacking. There the available estimate is applied throughout; b) TULAC = Textile, upholstery, leather available for emission of polymeric PFASs; d) For these sectors the emissions relate to stock (presented in italics). For reference only, the emissions from the market in 2020 are also given; e) Includes emissions of fluorinated gases in transport sector; f) Total based on emissions from best available data; g) For reference only, also the total emissions from tonnage brought new to market in 2020 are presented.

Subject: FW: PFAS workshop announced!

Da

Waarschijnlijk van interest voor jou en je netwerk rond PFAS ook.

Wij hadden een side-event gehad bij de OEWG van de Montreal Protocol in Bangkok. En ik was verbaast dat de F-gassen de meeste emissie van PFAS is. Meer dan 60% blijktbaar. De link tussen onze dossiers is dus groter dan ik dacht.

Mvg

Alain

PFAS WORKSHOP

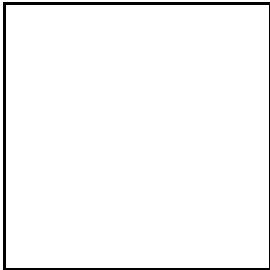

We are thrilled to announce the PFAS workshop of **ATMOsphere Europe Summit 2023**! The presentations, followed by an interactive discussion, will focus on the impact of fluorinated gases that are PFAS and their TFA (trifluoroacetic acid) degradation product on our health, safety and the environment.

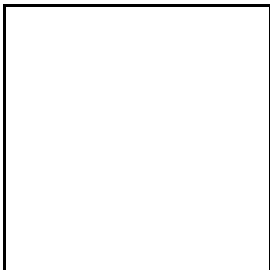

Jutta Paulus, member of the **European Parliament**

Christine Lützkendorf, *Policy Advisor on Fluorinated Greenhouse Gases*, **DUH**

Jonatan Kleimark, *Senior Chemicals and Business Advisor*, **ChemSec** - *To be confirmed*

Thomas Trevisan, *Deputy Manager PA - Ozone, Climate, Energy and Chemicals*, **ATMOsphere**

Don't miss out on an **exciting programme** bringing together decision makers working with natural refrigerants!

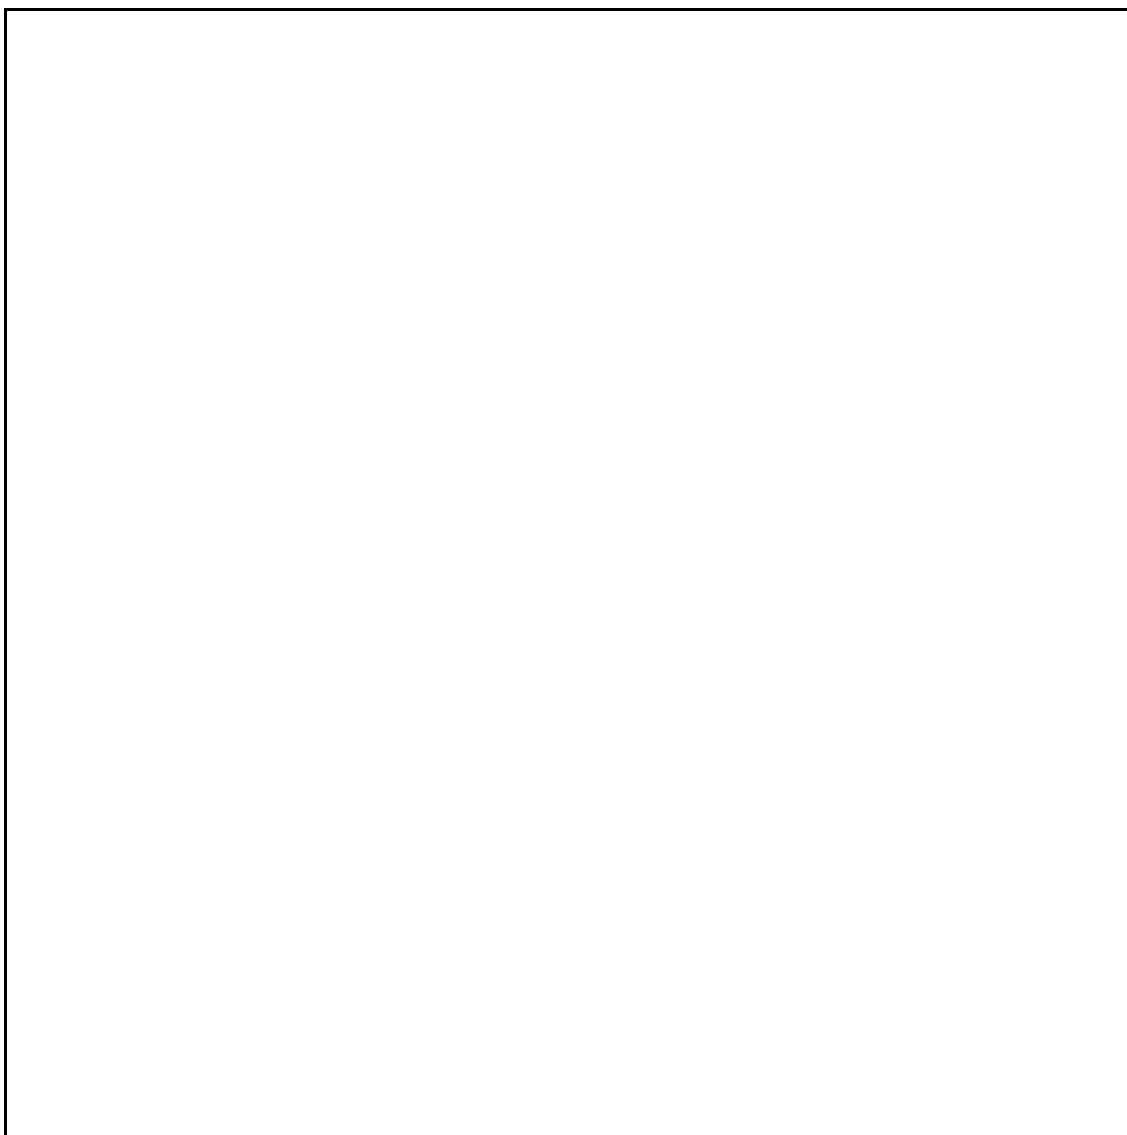

This year will not only be about refrigeration, but also about heat pumps, transport refrigeration and mobile air conditioning (MAC).

Make sure to **reserve your spot** today!
