Interoffice Communication

To Dan Plummer
From Tom Grumbles
Date March 26, 1984
Subject TWA REQUEST FOR LPA MSDS

As you will see from the enclosed, TWA wants very specific constituent data for purchased products. I don't believe any constituent in LPA is OSHA regulated or in the current TLV list. However, could you see what detailed analysis we have, if any, and give me a call or send the analysis.

Thomas G. Grumbles

Reference: (YOUR PRODUCT NAME)

This letter is to assure you that the Material Safety Data Sheet (MSDS) we are furnishing you for the referenced product lists all chemicals in this product greater than one percent by volume or weight and listed in OSHA 1910.1000 through 1046.

The MSDS furnished to you shows the chemical names and threshold limit values as they are listed in the current OSHA regulations or the more recent additions or changes made by the American Conference of Governmental Industrial Hygienists.
