

LEAD INDUSTRIES ASSOCIATION

Graybar Building, 420 Lexington Avenue
New York, N. Y.

May 14, 1935.

To Members of the Lead Industries Association:

Dr. Carey P. McCord, Medical Director of the Industrial Health Conservancy Laboratories in Cincinnati, has mailed us copy of a booklet he has recently published entitled:

The Basophilic Aggregation Test for Lead Absorption and Lead Poisoning

and has kindly offered to mail copies to all our members interested in the subject.

We have provided him with the name of your Company, so please be on the lookout for the receipt of this publication in the near future. I am sure you will find it of considerable interest.

Very truly yours,

H. W. Towser
Secretary.
