You don't often get email from corey_norman@curtis.senate.gov. [Learn why this is important](#)

CAUTION: This email originated from outside of the Department of Transportation (DOT). Do not click on links or open attachments unless you recognize the sender and know the content is safe.

My boss chatted with the Secretary. This is about a grant for St George, UT that was noticed last year but DOT has been sitting on without obligation. The concern is that as soon as the reconciliation is signed, those funds get rescinded.

Your boss asked Senator Curtis to give him a quick three sentences of the project and why it's important. He sent him this:

"The project raises I-15 in St George by 22 feet and adds two underpasses which would be a huge help to traffic congestion in St George. It will help emergency response times, making it easier to get places like the hospital and Utah Tech University."

Thanks, Pete. Just digging out of email and seeing this. My cell is (b)(6)

I think they connected earlier today. Let me know if that's not the case.

Corey, your boss called the Secretary and asked that we look at a project. I'm not clear on the details of the ask. Could you please call me (b)(6) Thank you,
